Dominic Voss

Siemens Gamesa –

Latest Product Portfolio for On-and Offshore Solutions

Siemens Gamesa is one of the leading manufacturers for wind turbines worldwide. During the session, the speaker will review the latest developments within the company and give an overview over the product portfolio for onshore and offshore solutions at Siemens Gamesa.

The speaker

Dominic Voss, Siemens Gamesa

Dominic Voss studied energy and environmental management at the University of Applied Science Flensburg from 2006 to 2012 with focus on renewable energy. He wrote his master thesis with the title: "Damages on offshore WTG - An evaluation of the current situation and conclusions for future economical effects" in conjunction with an internship at the company 8.2 Consulting AG in Hamburg.

Afterwards he joined Siemens AG as trainee for Technical Sales Management. Since 2013 Mr. Voss is working as Technical Sales Manager at Siemens Gamesa.
